### Selection/ranking of students:

The procedure for selection/ranking of the students will be accomplished by the internal IBU Commission. Candidates will be ranked and selected according to the following criteria:

- GPA and number of failed courses;
- Year of studies and study program;
- The reasons for doing a traineeship abroad;
- Compatibility of host organization with the study program of the student;
- Knowledge of the English language or the language of instruction of the host organization.

Priority will be given to the students from the third year of studies as the internship is a compulsory course in their curricula and to the students who have not previously been on an Erasmus+ mobility.
